Title of the project:

Expense Tracking and Management System

Objective of the Project:

The objective of the Expense Tracker project is to develop a user-friendly and efficient web-based application that enables users to manage their finances effectively. The application aims to help users keep track of their income, expenses, and budget goals seamlessly. By providing a clear and intuitive interface, the Expense Tracker application intends to empower users to monitor their spending habits, analyse financial patterns, and make informed decisions to achieve financial stability.
